SUMMARY

Full Stack Developer who ships and maintains production websites end to end — frontend, backend, and the infrastructure they run on. Built and supported **30+ live WordPress and PHP sites**, cut page load times by **~40%**, and lifted Google PageSpeed and Core Web Vitals scores through performance engineering and technical SEO. Resolved **100+ support tickets** across hosting, deployment, and debugging. Comfortable across JavaScript/React, PHP, MySQL, Docker, and Linux — and equally comfortable talking to clients. Trilingual: Spanish (native), English (C1), German (C1).

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, SQL, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Astro, Node.js, Express, Tailwind CSS, WordPress

Databases: MySQL, PostgreSQL, Supabase, Firebase

DevOps & Deployment: Docker, Git, GitHub Actions, CI/CD, Linux, Nginx, Cloudflare, Netlify, Vercel, Hostinger, VPS, cPanel, FTP

CMS & Performance: WordPress, Elementor, Gutenberg, Technical SEO, Schema markup, Core Web Vitals, Google PageSpeed, image optimization

Methods: REST APIs, responsive design, cross-browser compatibility, debugging, Agile, technical documentation, troubleshooting

EXPERIENCE

Almost Illegal Ads — Full Stack Web Developer & Systems Support

Oct 2025 – Present

Bogotá, Colombia (Remote)

- Built and maintained **30+ production WordPress sites** for U.S. law firms, delivering responsive frontends in Elementor and Gutenberg backed by custom PHP and MySQL.
- Cut average page load times by **~40%** and raised Google PageSpeed and Core Web Vitals scores through image optimization, caching, and Cloudflare CDN configuration.
- Resolved **100+ technical support tickets** spanning hosting, deployment, and site functionality, keeping client sites stable with fast turnaround.
- Grew organic traffic across the portfolio by implementing technical SEO — schema markup, meta tags, and page-speed tuning.
- Deployed and managed sites across environments using Git, FTP, cPanel, VPS, Netlify, Vercel, and Hostinger.
- Diagnosed and fixed production bugs through systematic testing; partnered directly with clients to turn requirements into shipped features.

AHK Colombia (German-Colombian Chamber of Industry & Commerce) — Communications & Marketing Manager

2024

Bogotá, Colombia

- Reached **5,000+ users** by planning and running bilingual (Spanish/German) digital campaigns across web and social channels.
- Increased Instagram engagement by **32%** with a data-informed content strategy, and produced technical and marketing documentation that standardized messaging across teams.

Atento — Meta Ads Trainer

2023 – Jan 2024

Bogotá, Colombia

- Trained **100+ agents** on Meta Ads tools and workflows, raising team proficiency and reducing escalations.
- Authored technical documentation and training materials that shortened onboarding and standardized troubleshooting.

PROJECTS

Developer Portfolio — *Astro, Tailwind CSS*. Modern component-based architecture optimized for performance and accessibility; fully responsive, deployed to a global CDN. andressoler.netlify.app

URL Shortener — *React, Supabase*. Full-stack app with authentication, complete CRUD, and a normalized database schema; scalable architecture and responsive UI.

Meta Ads Knowledge Base — *Technical Documentation*. Structured, searchable reference and training material built from scattered product know-how.

EDUCATION & LANGUAGES

Bachelor of Arts in Philology (German emphasis) — Universidad Nacional de Colombia · 2015 – 2021

Languages: Spanish — Native · English — C1 · German — C1
